

# Information de santé d'UK - influençant des décideurs politiques

Dix ans d'observation

**Professor John Wilkinson**  
 Director North East Public Health Observatory in England

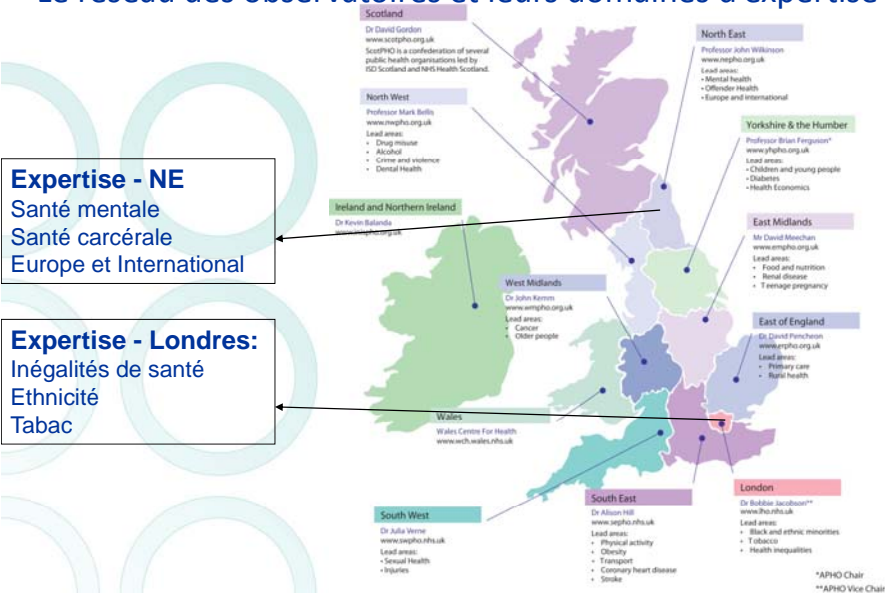

**Bordeaux, France**

**27 Novembre 2009**

# Les points développés dans cette communication

- Une introduction au système de santé en Angleterre et sur l'association des observatoires de santé publique d'UK /Irlande.
- Les outils pour évaluer les problèmes d'inégalités de santé – quelques exemples

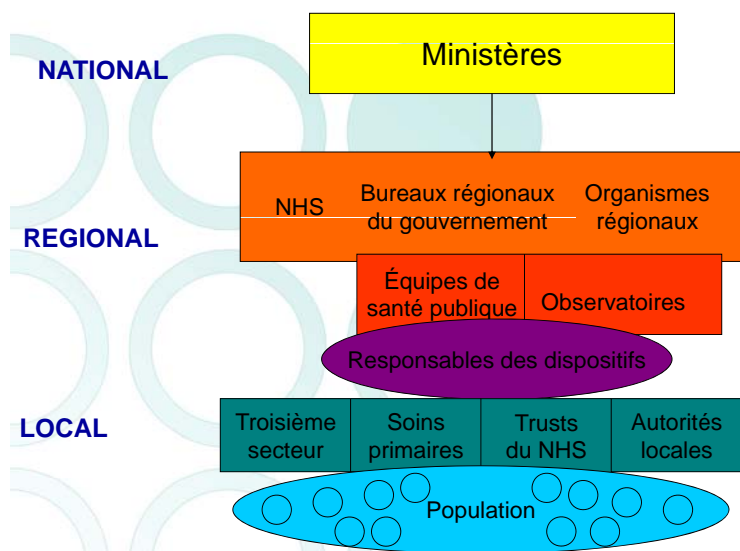

# Le réseau des observatoires et leurs domaines d'expertise

# Le réseau des observatoires – Que faisons nous?

- Nous valorisons les données de santé
- Nous surveillons
- Nous sommes un réseau de 'hub'
- Nous travaillons avec l'APHO
- Nous assistons les professionnels de santé au niveau régional

## Le système de santé en Angleterre

## Saving Lives: Our Healthier Nation - Role of Observatories

- Surveillance de l'évolution de la santé, des maladies et mise en évidence des territoires à privilégier pour réaliser des actions.
- Identification des lacunes dans l'information liée à la santé. Donner un avis sur des méthodes d'évaluation des incidences de santé et d'inégalité
- Réunir l'information de différentes sources pour améliorer l'observation de la santé. Mettre des projets à exécution pour traiter les problèmes de santé particuliers
- Progresser dans l'évaluation par les agences locales pour améliorer la santé et réduire les inégalités.
- Penser à l'avenir en détectant précocement les problèmes de santé publique

## NEPHO

- Contrat de base du département de santé
- PHINE (est le réseau du nord d'information en santé publique)
- RMSO - Bureau régional de surveillance des maternités
- Bibliothèque nationale de santé publique
- Observatoire national de santé mentale
- Observatoire de santé des délinquants
- Centre régional du système de surveillance national de traitement de la drogue
- Projets dans le cadre de l'Union européenne

## Diffusion

- Rapports
- Sites Web
- Conférences, formation et éducation

# Profils de santé

- L'APHO produit annuellement un profil de santé pour chaque autorité locale de santé en Angleterre
- Ils sont accessibles via un outil interactif sur internet
- Ils répondent à une demande du ministère de la santé (Angleterre)
- 32 indicateurs : causes et déterminants de santé, habitudes de vie des jeunes et des adultes, morbidité et état de santé, inégalités et tendances

# Profils de santé : Newcastle

**Newcastle upon Tyne**  
This is a Spearhead area

This profile gives a snapshot of health in your area. It is designed to help local government and primary care teams assess health inequalities and improve people's health.

Health Profiles are produced annually by the Association of Public Health Observatories and funded by the Department of Health.

Visit the Health Profiles website to:

- View profiles for other areas
- Use interactive maps
- Access updated information
- See more indicator data

www.healthprofiles.info

**Newcastle upon Tyne: at a glance**

- About forty per cent of the residents of Newcastle upon Tyne live in the most deprived areas of England, while nearly seven per cent live in the least deprived areas. Early deaths from heart disease and stroke and early deaths from cancer are worse than the England average. (An exception for both males and females is also worse than the England average.)
- Men from the most deprived areas of Newcastle upon Tyne live about ten years longer than those from the most deprived areas, and for women it is nearly seven extra years.
- Over the last ten years, death rates from all causes have gradually increased for men and women, but rates remain above the England average. The early death rate from heart disease and stroke has decreased markedly over the decade, while the early death rate from cancer has decreased.
- In Newcastle upon Tyne, the percentage of women who are physically active is better than the England average, while teenage pregnancy is worse.
- Rates of hospital stays for acute mental health and hospitalised mental health care for mental illness are worse than the England average.
- Newcastle upon Tyne has performed impressively recent health, reducing rates seen across and reducing inequality, together with reducing teenage pregnancy and smoking.
- Further information on health in this area can be found at [www.newcastle.nhs.uk](http://www.newcastle.nhs.uk)
